Projects

GoBeyond Travelling App (GitHub)   **Jun. 2024 – Jul. 2024**
- Created a responsive frontend design for a traveling app using ReactJS and React Bootstrap.
- Ensured a user-friendly interface with smooth navigation, interactive elements, and visually appealing layouts, enhancing overall user engagement and satisfaction.
- Deployed the application on GitHub for easy access and version control.

Analytics Dashboard (GitHub)   **Nov. 2022 – Mar. 2023**
- Created a dashboard to analyze user activity (e.g., how many users visited the site daily/weekly and from which region), using 90% TypeScript and 5% JavaScript.
- Implemented Tailwind CSS for responsive and efficient styling.
- Incorporated and uploaded the project to Git and GitHub for code maintenance and collaboration.
